

My Health Record FHIR Gateway

Release Note

5 March 2026 v5.0
Approved for external use
Document ID: **DH-4233:2026**

Related end product identifier: EP-4232:2026

These technical specifications enable developers to connect applications to the My Health Record system via the FHIR® Gateway. They describe API requests and responses, data mapping between CDA implementation guide fields and Fast Healthcare Interoperability Resources (FHIR®), and the error scenarios and associated error codes for all APIs. It is intended for use by FHIR® API consumers to understand the API signature exposed by the My Health Record system and 1800MEDICARE.

Release rationale

Change to existing viewing delay period for Diagnostic Imaging Reports on the My Health Record to enable consumers to quickly access and view their reports with minimal or no delay. All relevant supporting documents have updated to reflect the changes.

New

none

Package inclusions

Updated (supersedes previous version)

| Identifier | Name and version |
|------------------------------|--|
| DH-4234:2026 | My Health Record FHIR Gateway – API Specification v5.0 |
| DH-4233:2026 | My Health Record FHIR Gateway – Release Note v5.0 |

No change

| Identifier | Name and version |
|------------------------------|--|
| DH-4021:2024 | My Health Record FHIR Gateway – Error Mapping v3.0 |
| DH-4020:2024 | My Health Record FHIR Gateway – Data Mapping v3.0 |

Removed (archived or withdrawn)

None.

Scope

Scope includes API specification editorial update to the following document published for the developers to refer to.

1. My Health Record FHIR Gateway – API Specification v5.0

Stakeholders

The following stakeholders have been involved in the development of this release:

- Australian Digital Health Agency
- My Health Record National Infrastructure Operator

Audience

These documents are available to software vendors developing My Health Record-enabled products.

Capabilities

No change

The API version 2.0.0 and API (3.0.0) of My Health Record FHIR® Gateway remains the same. There is no change to how they are being used by existing services and views.

Changes to following Documents.

- My Health Record FHIR Gateway – API Specification v5.0
 - Appendix A.9 Type View and Codes updated

Known issues

None identified.
