

My Health Record Release 26.3.0

Vendor Release Notes – Software Vendor Production Environment

24 September 2026 Version 1.0.0
Approved for external use

Production Deployment Schedule

My Health Record Release 26.3.0 will be deployed into the My Health Record Production environment on **Thursday 15 October 2026 (expected timeframe: 9:00 AM - 9:25 PM AEDT)**. All functionality of the Production environment will remain available.

Summary of Changes

Release 26.3.0 of the My Health Record system is focused on delivering functional and security updates. This includes:

- 1800MEDICARE app - Notification Feature (Phase 2)
- Defects
- Patches
- Problem fixes

1800MEDICARE app - Notification Feature (Phase 2)

The purpose of the work package is to deliver the capability to generate and deliver targeted push notifications to 1800MEDICARE app users in response to specific My Health Record events, including but not limited to the upload of a clinical document, the acceptance of an invitation request by a representative, or access to a user's record by a representative or healthcare provider.

The work package will also deliver the capability for users to manage their push notification preferences within the app by selecting either Yes or No to determine whether they receive push notifications

In scope items for this release are:

- Storing device information for device push notifications
- Read/Write My Health Record notification preferences
- Write notification events
- Write/Delete (unlink) My Health Record events

Defects

There are no vendor system related defects being addressed as part of Release 26.3.0.

Patches

As part of Release 26.3.0, patches will be deployed to maintain the security posture of the My Health Record system. The patch release notes from Oracle do not suggest that there will be any impact to vendors. However, there is still a risk that these patches may impact how vendors interact with the My Health Record system.

Problem Fixes

Problem fixes being delivered as part of Release 26.3.0 will have no impact on vendors.
